AWA expands portfolio and consolidates sales through wholesale

Altenburg/Sindelfingen, 18.06.2026. Paving the way for the future, the long-standing Armaturenwerk Altenburg (AWA) company based in Thuringia has been expanding its portfolio to include refrigeration, air conditioning and heat pump components and consolidating its sales through wholesale since 1 June 2026. In this way, the company is responding to growing market demands and further positioning itself as a reliable partner for high-quality system components.

The Armaturenwerk Altenburg (AWA) company is expanding its market presence and taking a more targeted approach to fulfilling customer requirements. A member of the BITZER Group since 2013, the company began offering an expanded product range on 1 June 2026, including ball valves, solenoid valves, expansion valves, filter driers and sight glasses. These products enable additional applications in refrigeration, air conditioning and heat pump technology and optimally complement the existing range.

‘With the expansion of our portfolio, we’re making a clear statement about our commitment to growth and innovation,’ emphasises Dr Volker Simon, Plant Manager at AWA. At the same time, AWA is intensifying its collaboration with wholesalers. ‘We look forward to making our solutions even more widely available in the future,’ adds Simon. With these strategic steps, AWA is actively adapting to a dynamic market environment, tapping into new international markets and consolidating its sales strategy over the long term.

Founded in 1879, Armaturenwerk Altenburg (AWA) has more than 140 years of experience in the development and manufacture of refrigeration, air conditioning and heat pump components. The company, based in Altenburg, Thuringia, offers a broad portfolio of shut-off, check, solenoid and expansion valves as well as high-quality sight

glasses. The portfolio also comprises customised solutions and accessories. AWA stands for precision and quality, and its products are designed for a wide range of applications, including those using natural refrigerants. AWA has been part of the BITZER Group since 2013. In 2025, 200 employees generated a turnover of €30 million.
